

Deanna has been helping Women's Humane out for over two years, and she jumped in quickly to every facet of the organization. She comes each and every week to walk our dogs, and she has been eager to learn about their behavior here and how best to support their mental health. Deanna also visits PetSmart weekly, even when it hasn't been convenient for her. She attends events whenever she can, helping with animal handling and supporting our staff.

Her positive attitude, willingness to learn and dedication to our mission make Deanna an invaluable member of our team here. She helps Women's Humane build toward a better future, and we are so grateful to have her help.

*Thank you, Deanna!*
