

## **WOMEN'S HUMANE SOCIETY VOLUNTEER OF THE MONTH**

### **TERRI KELLY**

Terri has been volunteering with us for almost nine months, coming in a couple of days a week and on events to help out with our adoptable cat population. Terri is such a joy to work with – she even deals with some of our most annoying members of the public with a smile (and always talks up our long-termers). She caught on so quickly to the cat enrichment routine that she has taken on some training when I need help! She gets to know every cat and gives the staff valuable information about their personalities that we don't always have the time to glean ourselves.

She is eager to help our animals in any new way we offer, and we've been fortunate to have her recruit her equally vivacious daughter, Liz, to join the volunteer team as well! Right now, Terri is healing from an injury, so please wish her a speedy recovery because we miss her!

## **THANK YOU, TERRI!**
