WOMEN'S ANIMAL CENTER RECEIVES HISTORIC MARKER

On Sunday, September 22nd, Women's Animal Center proudly dedicated a state marker awarded to us by the Pennsylvania Historical & Museum Commission for our significance as America's First Animal Shelter. The marker was unveiled at the location of our original offices - 1320 Chestnut Street in Philadelphia. The concept of animal sheltering and rehoming to the nation was introduced to the nation at this very site in 1869 and now this marker will remain as a permanent reminder to future generations of our organization's primary place in the history of animal welfare. The Board of Directors and Staff of WAC were honored to be joined by special guests, Nancy Moses, Chair of the PHMC, and Bernard Unti, Senior Policy Advisor for The Humane Society of the United States at the ceremony, which marked the last official event of Women's Animal Center's 150th Anniversary celebrations. We now look ahead and focus on carrying out the lifesaving legacy of our visionary founders for the next 150 years - as we continue our work towards a future in which no animal need suffer, and every pet has a loving home. 🐾
