

# WHAT TO DO IF YOU FIND KITTENS

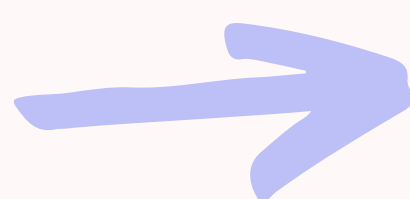

IF MAMA CAT IS  
NOT THERE...

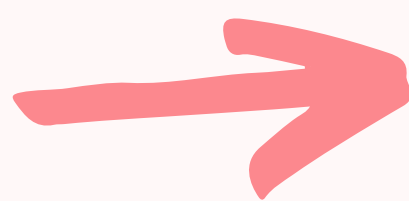

Leave the kittens alone and observe from a distance. Most likely, their mom is out finding food and will return soon.

IF MAMA CAT IS  
THERE...

She will know exactly what her kittens need to grow! You can help by providing her with essentials like regular food, clean water, and a safe and secure outdoor shelter.

IF MAMA CAT IS  
GONE FOR 6+  
HOURS...

Please contact our shelter to determine what to do next. We may request that you bring the kittens in so we can continue their care.

To help prevent more kittens in the future, consider participating in Women's Animal Center's TNR program, where feral cats are spayed or neutered and returned to their outdoor homes.

PLEASE CONTACT WOMEN'S ANIMAL CENTER BEFORE BRINGING  
KITTENS INTO THE SHELTER.
